RE: Site Inspection, State ML 43395, Rex Harris, S/027/011, Millard County, Utah

Date of Inspection: January 30, 1992
Conditions: Sunny, cool, some snow drifts
Time of Inspection: 1635 - 1745
Participants: Wayne Hedberg, Tony Gallegos, DOGM

This site and the other nearby Trilobite operations were inspected while in the area. The inspections were not planned and were cursory in nature. All sites are located on State Lands.

This site is across the drainage from the main access road and up on the mountain slope. A truck and one person were present at the site upon our arrival. Mr. Craig Bishop was currently working at the site. Mr. Bishop indicated that Mr. Ken Meyers was usually the principal person working the site, but he was in town that day. The disturbance at this site does not appear to have grown much. Photographs were taken to compare with previous Division photos.
